Skin:	Wash skin thoroughly with soap and water as soon as reasonably practicable. Remove heavily contaminated clothing and wash underlying skin.
Ingestion:	If contamination of the mouth occurs, wash out thoroughly with water. Except as a deliberate act, the ingestion of large amounts of product is unlikely. If it should occur, do not induce vomiting; obtain medical advice.
<b>4.2 Most important symptoms and effects, both acute and delayed</b>	No ill effects known.
<b>4.3 Indication of any immediate medical attention and special treatment needed</b>	Eye contact: immediately wash out with plenty of water

### 5. FIRE-FIGHTING MEASURES

#### 5.1 Extinguishing media

Use foam, dry power or water fog. DO NOT USE water jets. Water may be used to cool nearby heat exposed areas/objects/packages.

#### 5.2 Specific hazards arising from the substance or mixture

Avoid spraying directly into storage containers because of the danger of boil-over. Toxic fumes may be evolved on burning or exposure to heat. See stability and Reactivity, Section 10 of this data sheet.

#### 5.3 Advice for fire-fighters

Wear self-contained breathing apparatus.

### 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

Wear Personal Protective Equipment. Spilled material may make surfaces slippery. Contain and recover spilled material using sand or other suitable inert absorbent material. It is advised that stocks of suitable absorbent material should be held in quantities sufficient to deal with any spillage which may be reasonably anticipated.

#### 6.2 Environmental precautions

Protect drains from potential spills to minimise contamination. Do not wash product into drainage system. In the case of large spills contact the appropriate authorities. In the case of spillage on water, prevent the spread of product by the use of suitable barrier equipment. Recover product from the surface. Protect environmentally sensitive areas and water supplies.

#### 6.3 Methods and material for containment and cleaning up

Absorb into dry earth or sand, transfer into suitable containers for disposal.

#### 6.4 Reference to other sections

Personal protective equipment. See section 8.

### 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

Avoid contact with eyes. If splashing is likely to occur wear a full face visor or chemical goggles as appropriate. Avoid frequent or prolonged skin contact with fresh or used product. Good working practices, high standards of personal hygiene and plant cleanliness must be maintained at all times. Wash hands thoroughly after contact. Use disposable cloths and discard when soiled. Do not put soiled cloths into pockets.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store under cover away from heat and sources of ignition. Product contaminated rags, paper or material used to absorb spillages, represent a fire hazard, and should not be allowed to accumulate. Dispose of safely immediately after use.

#### 7.3 Specific end use(s)

Intended for use as a process oil.
