

SGA04

DIESEL ADDITIVE

Product Application:

SGA04 is a multifunctional diesel treatment that combines strong detergency and lubricity agents.

SGA04 is supplied in 325 ml bottles. One bottle treats 50 to 70 litres of fuel. Maximum benefit is obtained when used at each tank fill.

SGA04 cleans deposits and keeps clean injectors and pistons.

SGA04 provides superior lubrication used with low sulphur diesel fuels preventing wear and premature failure of injector pumps and injectors.

SGA04 reduces diesel knock, smoothes idling and eliminates tough starting.

SGA04 reduces emissions, black smoke and soot.

SGA04 helps to improve fuel economy.

Typical characteristics

Properties	Method	Typical value
Appearance	Visual	Bright & clear liquid
Density 15°C	ASTM D4052	0.823 kg/l
Flash point PMCC	ASTM D93	69°C
Kinematic viscosity 40°C	ASTM D445	2.6 cSt

Handling Practices

SGA04 must be kept away from heat and sources of ignition. Always replace cap after use. Keep away from children. Avoid release to the environment.

Avoid contact with skin and eyes. In case of accidental contact with eyes, wash thoroughly with running water for 10-15 minutes. If irritation develops and persists, seek medical advice. Wash exposed areas of skin thoroughly with water and soap if available. If swallowed, do not induce vomiting; seek medical advice immediately and show the package label.

For more extensive information on the safe handling and use of this product, see Material Safety Data Sheet.
