

Technical Data Sheet

PRODUCT

SGSR5/SGSR9: SUPER RED HAND CLEANER

PRODUCT INFORMATION

A heavy duty beaded hand-cleansing gel, based on biodegradable detergents. The gel formulation has been specifically designed to melt on the hand when subjected to body heat allowing for better penetration and removal of ground-in dirt.

The double action poly-beads enhance the cleaning action without scouring skin.

Suitable for use in any area where heavy soiling of the hands occurs: garages, workshops, printing industry, building industry, DIY, etc.

A red coloured viscous gel, with pleasant fresh fragrance.

DIRECTIONS

Apply to dry hands and work well into skin to loosen dirt.

Remove by washing hands in clean warm water.

Dry hands thoroughly after use and apply moisturising cream to keep skin in good condition.

N.B. Prior to commencing any work always use barrier cream to aid the removal of ground-in soil.

The Cosmetic Products (Safety) Regulations 1996

In accordance with the above regulations, labels for this product should carry the following information:

Ingredients: Aqua, Deodorized Kerosene, Tallol, Trideceth-5, Polypropylene, Trideceth-9, Sodium Hydroxide, Perfume, Sodium Benzoate, DMDM Hydantoin, Tetrasodium EDTA, CI16255.
